

# FOR THE BEST RESULTS!

covers **75 m<sup>2</sup>** for a **NEW LAWN**

or **225 m<sup>2</sup>** for **ESTABLISHED LAWN OVERSEEDING**

## NEW LAWN

*3 kg of seeds cover 75 m<sup>2</sup> (807 ft<sup>2</sup>)*

- 1** Addition of an organic fertilizer, such as MYKE<sup>®</sup> Lawn Fertilizer Step 1 according to the manufacturer's recommendations, is suggested
- 2** Rake the ground firmly
- 3** Sow the mix evenly
- 4** Rake the surface to blend mix with soil 3 to 5 mm (1/8 to 1/4 in)
- 5** Water regularly, during 10 days, to keep the ground humid. Do not overflow

## OVERSEEDING

*3 kg of seeds cover 225 m<sup>2</sup> (2 420 ft<sup>2</sup>)*

- 1** Mow the lawn and rake it firmly
- 2** Soil aeration and addition of a potting soil are suggested
- 3** Sow the mix evenly
- 4** Water regularly, during 10 days, to keep the ground humid

*Remember to feed your lawn!*

MYKE<sup>®</sup> offers you a complete, 3-step fertilizer program that is **ORGANIC-APPROVED**
